Logging in to a Vista computer

Enter your NPC User Name and password to log onto any college computer. Your user name is the "NPC User Name" shown on your student bio or SDS sheet. Your NPC User Name may be different than your MyNPC user name for students who enrolled at NPC before August 20, 2009.

Your username for student email is in the format "JStudent" for a student named Joe Student, i.e. the first initial of your first name and your full last name combined make up your user name. It does not matter if you use capital, lowercase, or any combination thereof in the user name box.

Your default password for student email is in the format dd-Mmm-yy, i.e. 05-Jan-87 for a student with a birth date of January 5, 1987. You must enter the password using the same capitalization as your default or as you entered when you changed your password, i.e. the first letter of the month in your default password must be capitalized, but the second and third letters must be lowercase.

If you change your password on a computer, it does NOT change your password in MyNPC or in email. Changing your computer password DOES change your WiFi access password and your password at every other computer in the college.

Not your User ID?

If you press ctrl-alt-delete and you see some other user, click "Switch User" and select "Other User" to see a blank login screen.

Select Other User

Click "Other User" if you don't see your name in the list of users who can log on.
